

ASX Code: RED

Dec-20 Quarterly Presentation

28 January 2021

Mark Williams, Managing Director

www.red5ltd.com

Competent Person's Statement and Disclaimer

Competent Person Statements for JORC 2012 Mineral Resource and Ore Reserves

The information in this presentation that relates to the Mineral Resources at the Siana open pit is extracted from the report titled Siana Gold Project – Open Pit Mining Review and Reserve Update, released on 24 September 2015 and is available on the ASX web-site, figures quoted are reported as at 30 June 2018. The information in this presentation that relates to Mineral Resources for the Siana Underground Mineral Resources for the Siana Underground Siana Gold Project: Underground Mine Approved for Development Following Completion of Positive Updated Feasibility Study dated 14 June 2016 and is available on the ASX web-site. The information in this presentation that relates to Underground Mine Optimisation at the Siana Underground is extracted from the report titled "Siana gold project and Company update" dated 20 June 2017 and is available on the ASX web-site. The information in this presentation that relates to Underground Mine Optimisation at the Siana Underground deposit relates to the ASX announcement titled "King of the Hills deposit is extracted from the ASX web-site. The information in this presentation that relates to the Mineral Resources and Ore Reserves for the Darlot Underground deposit relates to the ASX announcement titled "King of the Hills Mineral Resources for the King of the Hills deposit is extracted from the ASX announcement titled "King of the Hills Mineral Resources defined for near mine regional deposits at King of the Hills dated 1 May 2019, and Information in this presentation relating to KOTH satellite deposits is extracted from the ASX announcement titled "Kott Hills" dated 6 May 2020. The information in this presentation relating to KOTH satellite deposits is extracted from the ASX announcement titled "Kott Hills" dated 4 May 2020. The information in this presentation relating to KOTH satellite deposits is extracted from the ASX announcement titled "Kott Hills" dated 1 May 2020. The information in this presentation relating to KOTH satellite deposits is extracted from the ASX announc

Red 5 confirms that all the material assumptions underpinning the Final Feasibility Study production targets on the King of the Hills project (see ASX release 15 September 2020), or the forecast financial information derived from a production target, in the initial public reports continue to apply and have not materially changed.

Red 5 confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements, and that all material assumptions and technical parameters underpinning the estimates in the relevant market announcements continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Persons findings are presented have not been materially modified from the original market announcements.

Forward-Looking Statements

Certain statements made during or in connection with this presentation contain or comprise certain forward-looking statements regarding Red 5's Mineral Resources and Reserves, exploration activities, project development operations, production rates, life of mine, projected cash flow, capital expenditure, operating costs and other economic performance and financial condition as well as general market outlook. Although Red 5 believes that the expectations reflected in such forward-looking statements are reasonable, such expectations are only predictions and are subject to inherent risks and uncertainties which could cause actual values, results, performance or achievements to differ materially from those expressed, implied or projected in any forward looking statements and no assurance can be given that such expectations will prove to have been correct. Accordingly, results could differ materially from those set out in the forward-looking statements as a result of, among other factors, changes in economic and market conditions, delays or changes in the regulatory environment and other government actions, fluctuations in metals prices and exchange rates and business and operating initiatives, each of Red 5, its officers, employees and advisors expressly disclaim any responsibility for the accuracy or completeness of the material or any loss or damage which may be suffered by any person as a consequence of any information in this presentation or any error or omission. Red 5 undertakes no obligation to update publicly or release any revisions to these forward-looking statements to reflect events or circumstances after today's date or to reflect the occurrence of unanticipated events other than required by the Corporations Act and ASX Listing Rules. Accordingly you should not place undue reliance on any forward looking statement.

Red 5 Limited – a standout growth opportunity

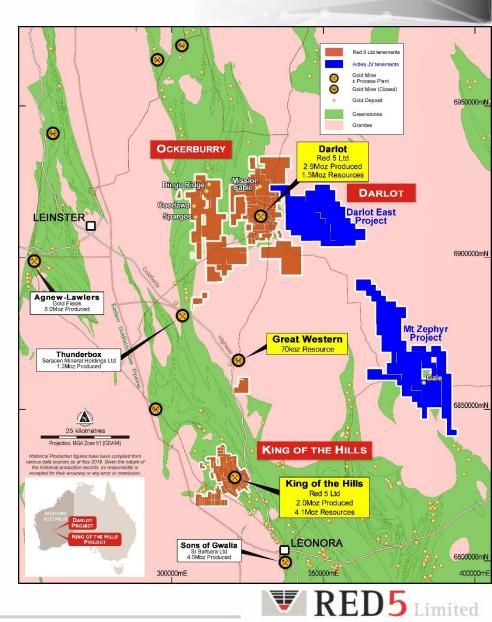

- Red 5 has two gold mines in one of the world's safest and most prospective gold districts
- King of the Hills (KOTH) is a major Australian gold deposit
 - Mineral Resource of 4.1Moz¹ and Ore Reserve of 2.4Moz²
- KOTH Final Feasibility Study²:
- 16-year LOM Plan first 6 years @ 176kozpa
- LOM AISC of A\$1,415/oz first 6 years A\$1,339/oz
- Capital cost of A\$226 million
- Experienced management team with strong project development skillset

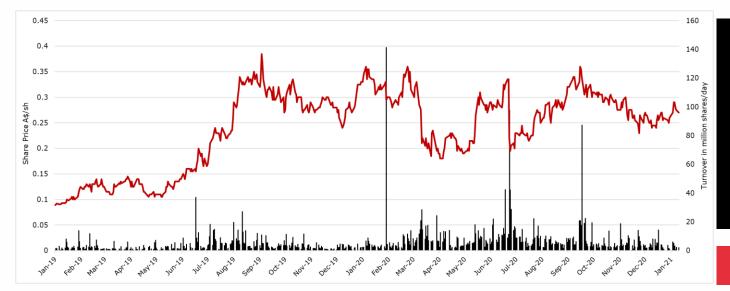

- Options being explored for Siana mine (Philippines), mine operations currently suspended
- Clear pathway to become a multi-asset, mid-tier gold producer by 2022

www.red5ltd.com

1. Red 5 ASX Release: 19 March 2020

Red 5 Limited – corporate profile

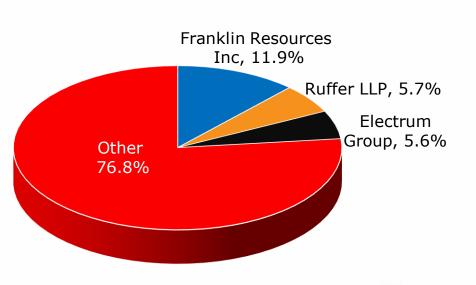

Share price at 27 January 2021	\$0.22
Shares issued	1,970.6M
Market capitalisation at 27 January 2021	\$433.5M
Cash & bullion at 31 December 2020 ¹	\$98.5M
Debt at 31 December 2020 ¹	\$5.0M
Enterprise value at 27 January 2021	\$340.0M

1. Debt and cash as at 31 December 2020, unaudited

Our Company Vision

"To be a successful multi-operational exploration and mining company, providing benefits to all stakeholders, through the consistent application of technical excellence, and responsible and sustainable industry practices."

Shareholders

ESG – enhancing governance and capability

Ms Andrea Sutton, Non-Executive Director, appointed Nov-20

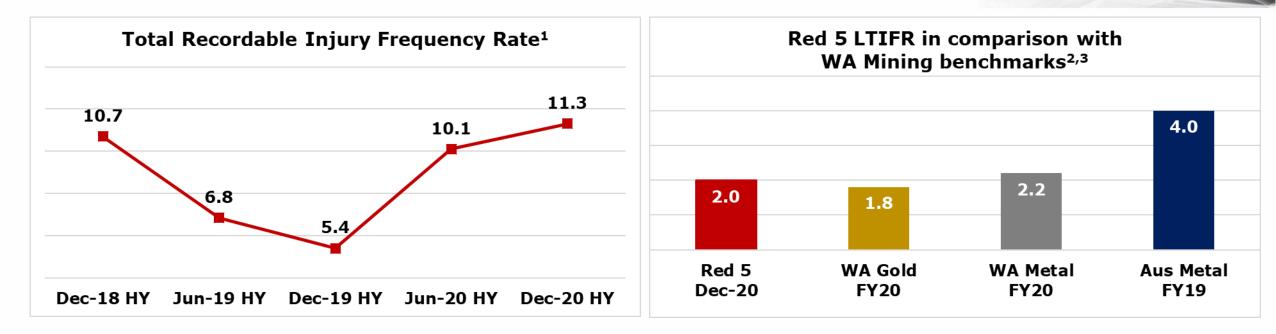

- 25+ years experience with Rio Tinto and Energy Resources of Australia (ERA)
- Current Board Member of Infrastructure WA, ANSTO (Australian Nuclear Science and Technology Organisation) and NAWO (National Association of Women in Operations)
- Former Chief Executive and Managing Director at ERA from 2013–17. NED from 2018-20
- Extensive executive and operational leadership roles across Rio Tinto including Head of Health, Environment, Safety & Security, GM Operations – Bengalla and GM of Infrastructure, Iron Ore
- Qualified Chemical Engineer

Mr Jason Greive, Chief Operating Officer, started Nov-20

- Experienced mining executive with broad operational, corporate and project development leadership experience
- 25+ years mining experience including with Evolution (including GM Technical Services and Lake Cowal GM Operations), RTG Mining (COO), Barrick and Rio Tinto
- Will be responsible for executing Red 5's growth strategy at KOTH and Darlot
- Qualified Metallurgist

ESG – a company built on a strong safety culture

- No LTI's for the December 2020 Quarter
- Continual engagement and focus on Safety ownership to address the current TRIFR spike through EHS Leading Indicator Programs, reinforcement of vital behaviours and personal safety training
- Darlot achieved recertification in ISO 45001:2018 Occupational H&S Management Systems

^{1.} Total Recordable Injury Frequency Rate (12 month ave.), total recordable injuries per million hours worked.

^{2.} LTIFR = Lost Time Injury Frequency Rate (12 month ave.), the number of lost time injuries per million hours worked.

^{3.} Most recent statistics from http://www.dmp.wa.gov.au/Safety/Safety-statistics-16198.aspx

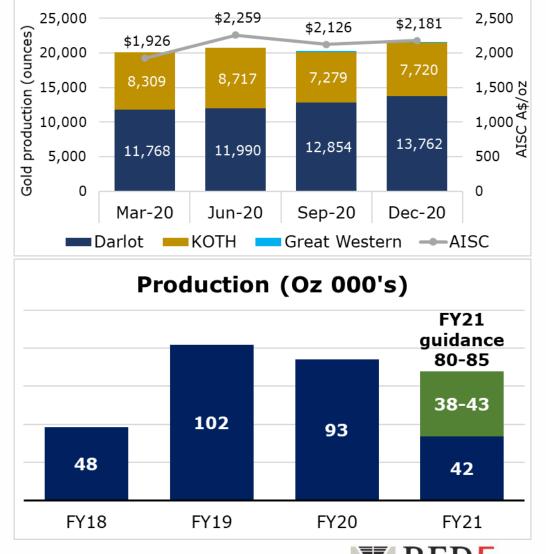

FY21 Darlot transition year to satellite feed

Dec-Qtr production 21,534oz, AISC A\$2,181/oz¹

- FY21 production guidance¹ revised to 80,000 85,000oz (previously 90,000 – 98,000oz)
- FY21 AISC guidance \$2,150 \$2,280/oz
- Lower than expected mining rates and grade from the Darlot Underground, predominantly associated with mining in remnant areas
- New open pit at Great Western permitted and mining to start in February 2021
- KOTH ore now being preserved for new mill

Operating free cash flow of A\$10.8M in Dec-Qtr¹

- Repaid A\$3M of loan facility (A\$5M outstanding)
- "Project 200" being implemented to reduce costs in second half FY21

7

www.red5ltd.com

Great Western mining starting in Feb-21

Updated mineral resource¹

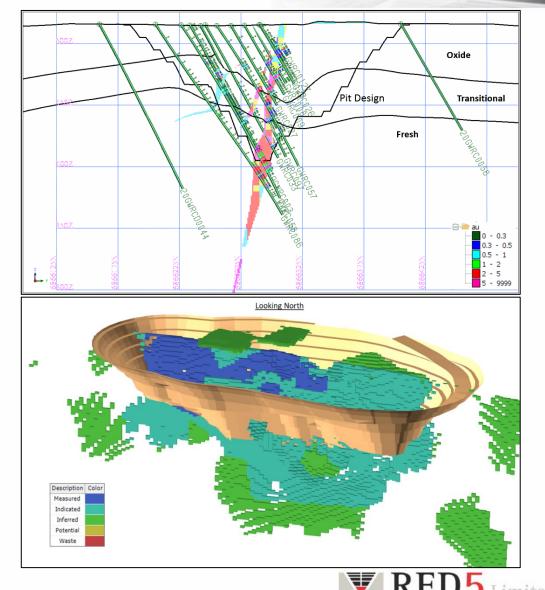

870kt @ 2.5g/t Au for 70koz

Maiden Open Pit Ore Reserve¹

- 438kt @ 2.5g/t Au for 34.5koz contained gold
- Additional assays pending
- Underground Ore Reserve still to be established
- Deposit remains open at depth, deeper drilling currently in progress

Permitted, mining to commence in February 2021

- Ore to be trucked ~50km to Darlot for processing
- In 2H FY21, GW is forecast to deliver 12-13k ounces at an average grade of 1.7-1.8 g/t to the Darlot processing plant²
- GW will deliver additional higher-grade ounces into the FY22 plan

2. Red 5 ASX Release: 28 January 2021

8

^{1.} Red 5 ASX Release: 15 October 2020

KOTH – Australia's next major gold mine

Final Feasibility Study highlights³:

- Initial 16-year mine life
- First production Jun-Qtr 2022
- First 4 years open pit and underground mining, peaking at 203koz in FY24
- Years 1-6 production of 176kozpa at AISC of A\$1,339/oz (LOM: 146koz @ A\$1,415/oz)

Next steps:

- Finalise project financing and remaining permits
- Full EPC contractor mobilization on-site
- Award mine service contracts

Australia's top 10 gold deposits by Ore Reserve²

2. Refer to Slide 34 for sources

3. Red 5 ASX Release: 15 September 2020

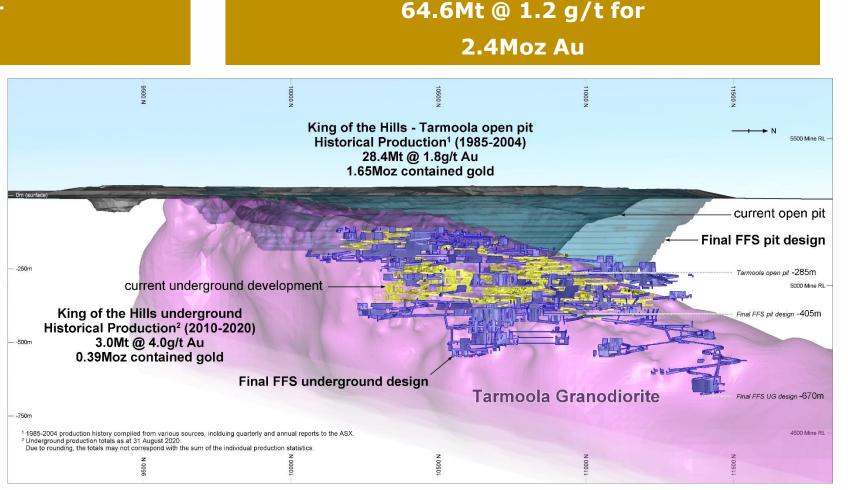

KOTH geology is well understood

Mar-20 Mineral Resource¹ 91Mt @ 1.4 g/t for 4.1Moz Au

- Ore body hosted in a substantial granodiorite-ultramafic intrusion
 - 4km long x 2km wide
- Historical understanding from previous open pit and underground mining
- Red 5 knowledge of the resource has benefited from mining underground and ore processing at Darlot since 2018
- Ore body remains open at depth and along strike
- Ongoing drilling expected to expand underground resources

Sub-total	219
Mining pre-strip	7
Total (Real) capital cost	226

- EPC fixed-price contract awarded to MACA Interquip
- Construction of camp and central facilities has commenced
- Over \$143M contracts awarded to date 82% of total capital and currently \$10M under budget
- \$13.6m spent at end of December 2020²

1. Red 5 ASX Release: 15 September 2020.

2. Red 5 ASX Release: 28 January 2021.

Mill casings in USA being loaded for transport

Installation of on-site camp modules

11

Camp to be ready for use in February 2021

- Camp construction progressing well
- First stage of village to be ready for use in Feb-21
- All central facility buildings have been delivered
- 61 single person quarters (SPQs) installed (220 rooms)
- 35 SPQs and 3 laundries ordered for installation by end of April
- Water treatment plant completed and passed acceptance test
- Wastewater treatment plant delivered to site

Bulk earthworks for KOTH Plant commenced

- MACA Interquip mobilised to site
- Earthworks started in December 2020
- Process plant equipment orders are being progressively issued
- Plate for CIL Tanks have been ordered
- Plant design on track
- Phase 2 EPC Notice of Award to be issued once Financing is secured

Delivery of SAG Mill and Gyratory Crusher

- The 15MW SAG Mill, shell and motors have been shipped from Houston to Johannesburg for refurbishment and upgrade
- The variable speed drive for the SAG mill is undergoing inspection in Switzerland
- MACA Interquip is supplying a new Metso gyratory crusher
- Cast in items have been manufactured and are in the process of being shipped to site

15MW SAG Mill - support much higher throughput

Hardest Ore	Design	Mid	High

Tonnes Per Hour (tph)	500	750	965
Tonnes Per Annum (Mtpa)	4.0	6.0	7.8

- Conventional 4Mtpa CIL plant
- Acquired 15MW, dual synchronous motor semiautonomous grind (SAG) mill with VVVF drive
- Delivery to site is expected in the June Quarter 2021
- Based on average KOTH ore, SAG mill is expected to operate well above 4MTPA
- SAG mill forecast throughput modelling performed by Orway Consultants, based on ore hardness and power variables

At a gold price of A\$2,500/oz:

- Free cashflow (after tax) of:
 - LOM total \$1,544m
 - Years 1-6 average is A\$144m p.a.
- Pre tax IRR of 64%
- Payback 25 months

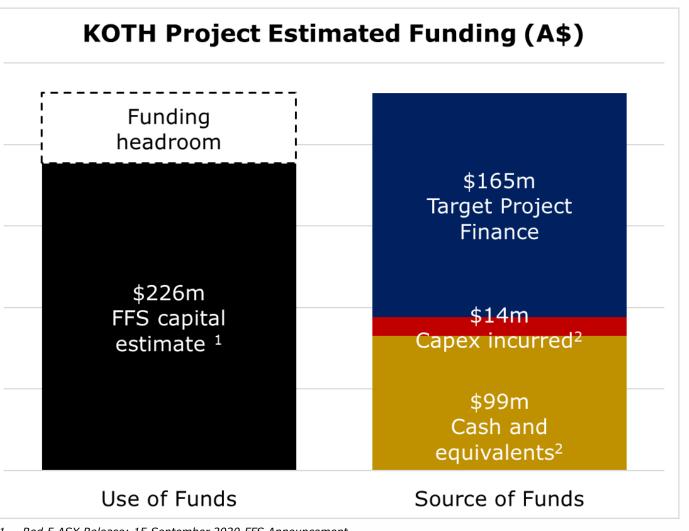

1. Red 5 ASX Release: 15 September 2020.

www.red5ltd.com

KOTH project financing is underway

- Low-risk brownfield project is attractive
 - High gold price environment
 - Strong project economics
 - Long reserve tail
 - Favorable mining jurisdiction
- Target Project Finance debt of up to \$165m
 - KOTH-allocated cash from FY20 equity raising was \$105m
 - \$13.6m of KOTH capex budget spent December 2020²
- Tier 1 banking syndicate has been mandated, now working towards credit approval and financial close

Siana Gold Project, Philippines

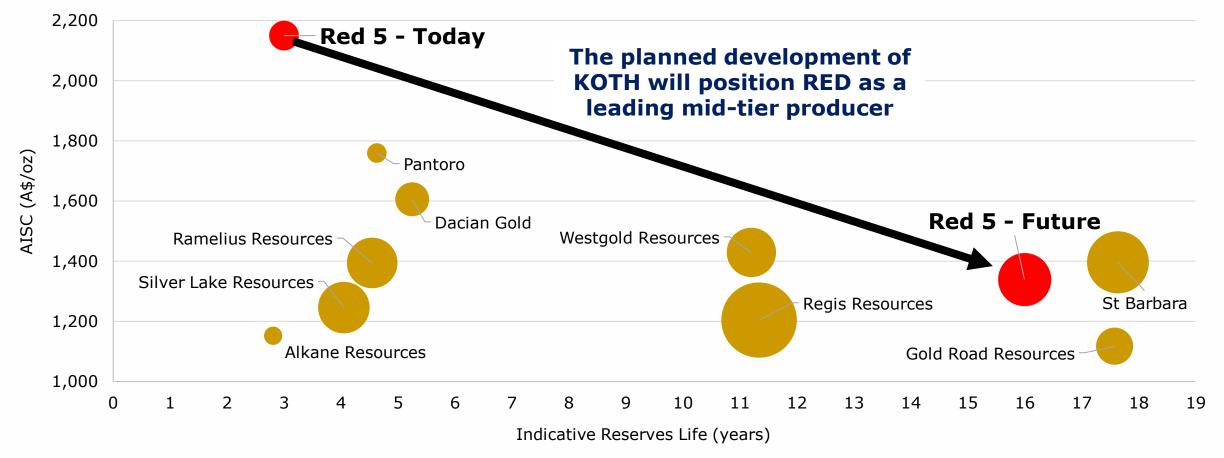

- The Siana Gold Mine, owned by Philippine affiliated company Greenstone Resources, suspended mine operations in April 2017
- Maintaining mill and pit dewatering to preserve value
- Siana is a valuable gold mining asset¹:
 - 8 year Life-of-Mine plan total production of 3.8Mt @ 4.6 g/t for 504koz
 - Average All-in Sustaining Cost of US\$790-US\$840/oz
 - Significant upside potential in Reserve
- Greenstone Resources continues to evaluate its preferred plan and options for Siana

1. Red 5 ASX release "Siana Gold Project and Company Update", 20 June 2017

Red 5 transformation to a mid-tier gold producer

- AISC and indicative mine reserve life of WA-based gold companies^{1,2}
- Gold companies/assets (Bubble Size = Indicative Production p.a)

21

KOTH is a unique Project in uncertain times

Red 5 ASX Release: 15 September 2020.
 Refer to slide 6 and 8 for Ore Reserve and Mineral Resource estimates for Red 5's Australian assets.

Growth of the Australian gold industry

- Top 10 Australian gold deposit by Ore Reserve
- 16 year LOM, average 176kozpa in Years 1-6¹
- Flexibility to expand Mill throughput, extend underground mine life beyond 4 years

Benefits to Western Australia economy

- 450 construction jobs
- 300 steady-state workforce
- Over A\$600m of taxes and royalties over LOM

Transformation of Red 5

2017 – purchase of Darlot and KOTH

<u>2022 – targeting 250kozpa+ mid-tier gold producer²</u>

Thank-you

Red 5 – appendix

Strong leadership team with operating expertise

Red 5 has a strong and capable team, with many years of mining and development experience both at Red 5 and previously at multi-billion international development projects – the Company is well placed to deliver the KOTH development

Board		Management tea	m		
Kevin Dundo Non-executive Chairman	Corporate lawyer specialising in commercial and corporate law with expertise in mining and financial services	Jason Greive Chief Operating Officer	Metallurgist with prior experience at Evolution RTG Mining, Barrick and Rio Tinto. Darlot long term – opportunities to extend LOM

Darlot Gold Mine ¹

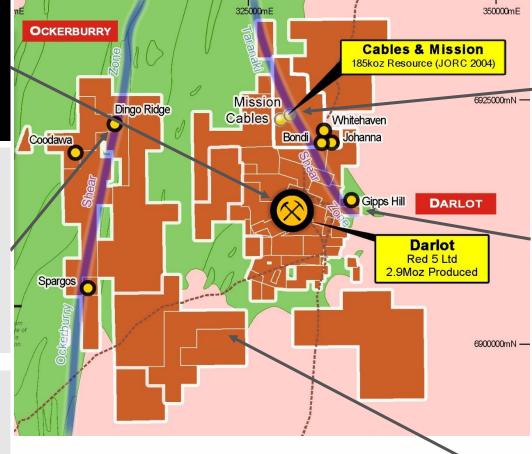

- Resource 11.8Mt @ 3.4g/t Au for 1.3Moz
- Reserve 2.7Mt @ 2.8g/t Au for 239koz
- 71,000m UG and surface drill program

Ockerburry Hill (Dingo Ridge)²

- 4km-long, 500m wide mineralised zone proximal to the Ockerburry fault corridor
- Mineralisation untested below 150m
- Historical drill results include²:
 - 5m @ 8.1g/t Au (ADAC0194)
 - 4m @ 9.7g/t Au (MVAC1203)

Great Western ³

- Resource of 870kt @ 2.5g/t Au for 70koz³ - ~55km south of Darlot mill
- Drilling defined strike length of 450m, depth of 200m, mineralisation open at depth
- Part of FY21 Mine Plan

Cables & Mission⁴

- Combined JORC 2004 Resource of 1.5Mt @ 3.1g/t Au for 185koz²
- Historical drilling suggests both deposits remain open along strike and down-dip
- Open in all directions in-fill drill program planned for FY21

Gipps Hill and Janine⁵

- Mineralised shear-hosted quartz lode (up to 5m wide) intercepted in historical RC drilling with grades up to 12.1g/t Au³
- Surface sampling results of up to 13.7g/t Au from historical mullock dumps and 21.9g/t Au at Janine
- Gipps Hill open in all directions and untested at depth

Emperor and King of the West ⁶

 Highly prospective strategic tenement package acquired from Kingwest in April 2020

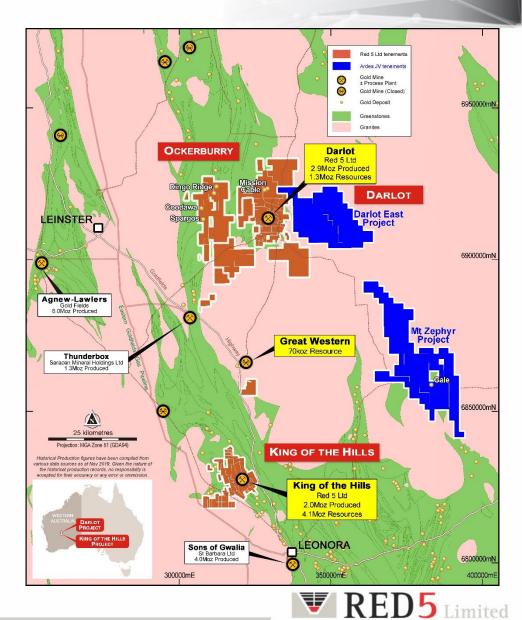

Ardea farm-in JV expands footprint to 1,923sqm

- Farm-in Joint Venture Agreement agreed with ASX-listed explorer Ardea Resources Ltd (ASX: ARL)¹
- Right to earn up to 80% over 3 years
 - Required to spend \$1.5 million within a 2-year period to earn an initial 60% interest in the tenements
 - Elect to spend an additional \$800,000 to earn an additional 20% interest

Consists of two projects

- 1. Mt Zephyr Project
 - Highly prospective target at Gale with potential for new discovery
- 2. Darlot East Project
 - Strategically expands Darlot footprint and potential for near-mill long-term satellite feed

KOTH - mineralisation open in all directions

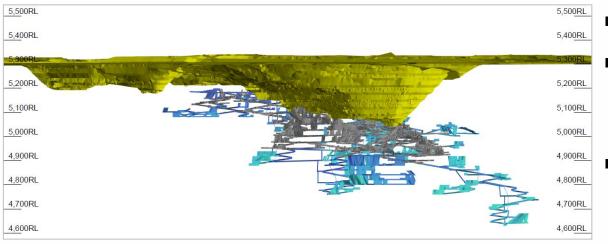

Proof of concept drilling confirms gold mineralisation extends 500m from Mineral Resource¹

Mineralised stockwork penetrates at least 70 metres into the granodiorite from the granodioriteultramafic contact

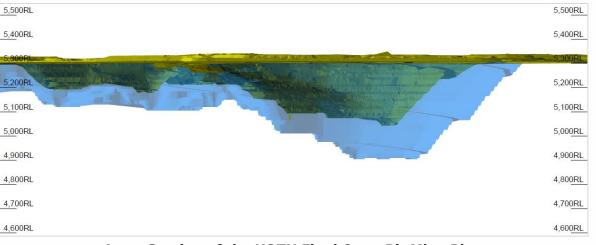

31

16 year initial LOM – open pit and underground

Long Section of the KOTH Underground Mine Plan (new mine stopes in blue)

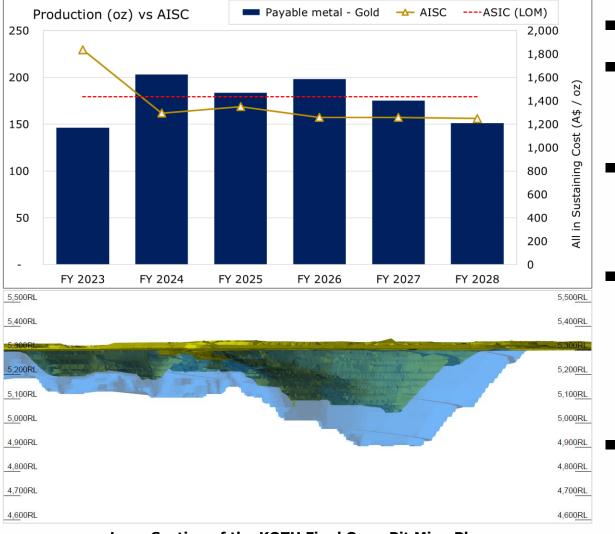

- Bulk open pit and underground mine
 - Start-up benefits from existing low-grade stockpiles (1.6Mt @ 0.6g/t) and Rainbow satellite pit
 - Minimal 3 months pre-strip required in FY22
 - Underground mining @ 1Mtpa for the first four years
 - Potential for further drilling to extend UG
 - OP mine avoids interrupting portal until FY27
 - Accessing higher-grade ore feed in early years
 - South Pit mined first to minimise stripping
 - Peak production of 203koz in FY23
 - Later cut-backs in North Pit allows South Pit to become short-haul backfill waste destination
- Satellite pits provide flexibility throughout LOM Plan
 - Rainbow mined during start-up
 - Cerebus-Eclipse mined in FY30-FY31 when cutbacks occur in North Pit

16 year initial LOM – open pit and underground

Long Section of the KOTH Final Open Pit Mine Plan

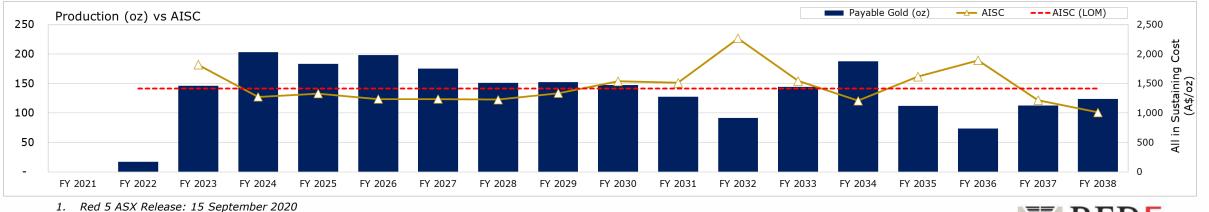

- Bulk open pit and underground mine
- Start-up benefits from existing low-grade stockpiles (1.6Mt @ 0.6g/t) and Rainbow satellite pit
 - Minimal 3 months pre-strip required in FY22
 - Underground mining @ 1Mtpa for the first four years
 - Potential for further drilling to extend UG
 - OP mine avoids interrupting portal until FY27
 - Accessing higher-grade ore feed in early years
 - South Pit mined first to minimise stripping
 - Peak production of 203koz in FY23
 - Later cut-backs in North Pit allows South Pit to become short-haul backfill waste destination
 - Satellite pits provide flexibility throughout LOM Plan
 - Rainbow mined during start-up
 - Cerebus-Eclipse mined in FY30-FY31 when cutbacks occur in North Pit

Transport & treatment	1	1
By product credits (silver)	(8)	(8)
Total Cash Cost (C1)	1,200	1,268
Royalties	80	80
Sustaining capital	59	67
Total AISC	1,339	1,415

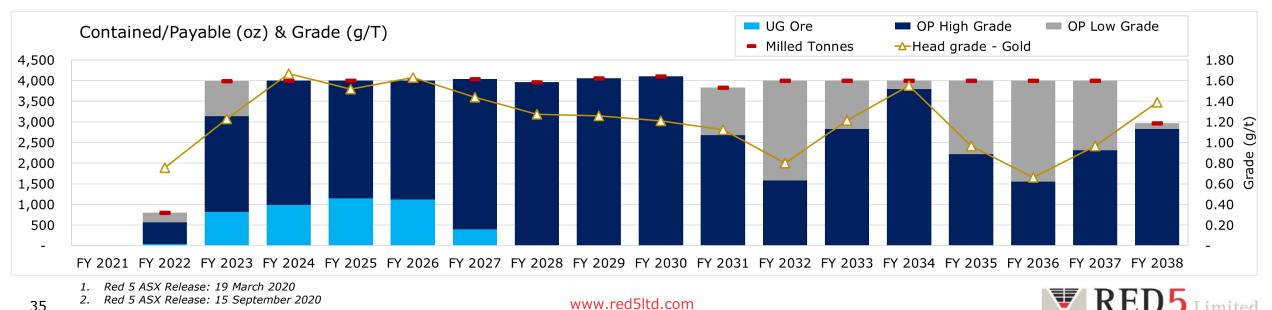

- Mining to be undertaken by mining contractors
 - Contractors to install mining facilities
 - Open pit fleet forecast to include 250t excavators and 140t haul trucks
 - Tender process commenced for OP and UG mine contracts
- Red 5 to operate mill
 - Experienced operators at Darlot
 - Experienced processing KOTH ore
- Higher stripping cost/waste movement in FY32 and FY33 to access high-grade open pit ore late in LOM increases the average AISC

KOTH LOM Plan focussed on maximising value

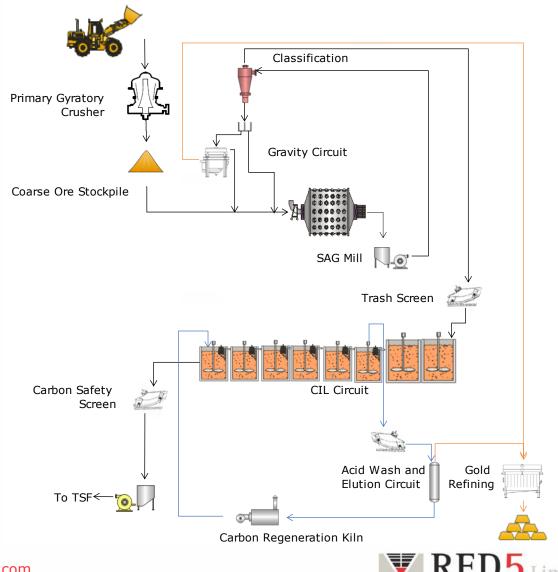

- Early years of LOM benefit from UG mining and processing of high-grade ore
 - Potential to extend UG mining beyond FY27
- Low-grade ore is stockpiled and processed in the back half of the LOM Plan
- Lower AISC during Years 1-6 result in short payback
- Flexibility in plant design to expand mill to 6Mtpa

4mtpa CIL plant with expansion capability

- Conventional 4Mtpa CIL plant
 - Designed for future expansion to 6Mtpa with minimal interruption and low CAPEX
 - Order has been placed for SAG mill
- Gyratory crusher with 6Mtpa installed capacity
 - Order has been placed for crusher
- Coarse grind P₈₀ 150µ¹ SAG mill compatible
- 92.7% recoveries¹ over LOM
- 25MW gas-fired power station connected to Goldfields gas pipeline
- \$11.83/t LOM processing cost¹
- High level of confidence in metallurgy:
 - Historical processing data (1989-2004)
 - Metallurgical testwork (historical and FFS)
 - Processing KOTH ore at Darlot

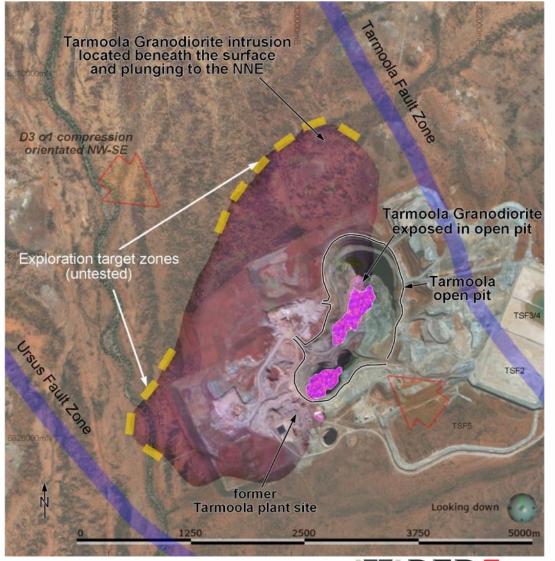

```
1. Red 5 ASX Release: 15 September 2020
```

Further scope to increase production and extend LOM

Future expansion in processing capacity

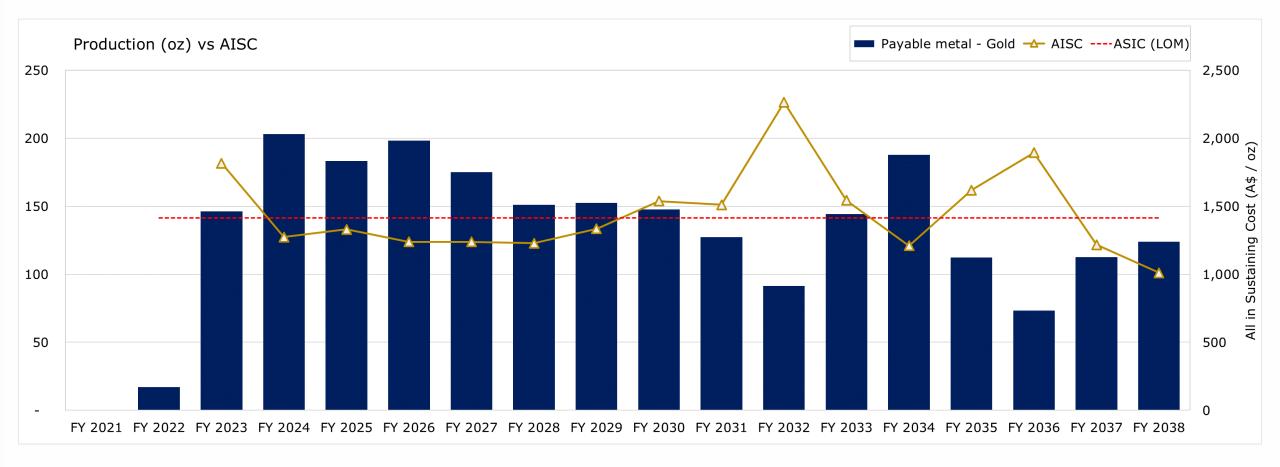

- 6*Mtpa crushing circuit included in FFS design/cost*
- Oversize 4Mtpa SAG Mill selected
- Design allowance for upgrade of the grinding, leaching and elution components
- Minimal production interruption
- Granodiorite/ultramafic contact zone extends almost 12km around the granodiorite, with the potential to host gold mineralisation outside of the existing mine area
- Extending underground mining beyond FY27 as development progresses
- Future exploration drilling areas include:
 - NW corner of granodiorite contact
 - Below Bulk Resource under southern end of open pit
 - Southern end of contact adjacent to Ursus Shear
 - Regional satellite deposits not currently included in the Ore Reserve and/or Mineral Resource

KOTH LOM plan gold sales profile¹
